NEW ADVERTISEMENTS.

THE RICHEST MAN IN THE WORLD.
EXTRACT OF A LETTER FROM HIRAM SOLOMON ROTHSCHILD.

Paris, 6th April, 1864, 96 Rue Faubourg St. Honore.

Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send it at the same time the account, I will forward you the amount through Messrs. Heimont & Co., New York.

Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, we should feel obliged to establish a depot in Paris.

THE INDIAN LINIMENT,

As a relief, ever ready; as a killer of pain, taken internally, or outwardly applied, has no equal. For the relief of Rheumatic and Neuralgic Affections, Sprains, Bruises, &c., it is unequalled. It is also most efficacious, taken inwardly, in the cure of Cholera Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c., and is without exception the most wonderful Internal Remedy in the world. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In cases of Accidents, and sudden Attacks of Alarming Complaints, its value cannot be estimated. Inquire for Major LANE'S INDIAN LINIMENT, and take no other. PRICE 50 Cts. per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 166 Greenwich street, N. Y.; C. Weller & Co., 198 Fulton-st., N. Y.; Geo. N. Ostrander, 55 4th Ave., N. Y., and by respectable Druggists throughout the world. None genuine unless signed by John Cross, Lane, and countersigned by J. T. LANE & CO., Proprietors, 183 Broadway, N. Y. Send for Circular.

BRYANT'S
RHEUMATISM, GOUT, AND NEURALGIA CURE.

DISCOVERED after 20 years' terrible suffering, during which time all other remedies were tried without avail. Thousands have been cured by it. The most severe pains relieved in 24 hours, by a box of Pills. Price 75 cents. One 50 package will eradicate the disease from the system. Send for circular. F. ALDEN, Agent, 16 School St., Room 3, Boston, Mass.

The Epitome of Elocution.
BY THE
REV. R. W. ATWELL,
PROFESSOR OF ELOCUTION,
PROVIDENCE, R. I.

The principles of Elocution and Vocal Culture are given in this work in a very concise manner, and the rules for Correct Reading and Speaking, as well as directions for improving and strengthening the voice, are so plain and simple that, even without a teacher, this manual can be used with profit by all students. It is of especial value to teachers and clergymen as well as to the student. Retail price 75 cents, for which price it will be sent by mail, postpaid, to any part of the United States.

A liberal discount to the Trade, from whom orders are solicited.

"There are none who cannot correct a faulty style of speaking and reading by attention to the rules prescribed in this little manual."—Prov. Morning Herald.

"A concise work on elocution, free from burdensome and complicated rules—Long been wanted."—Boston Evening Traveller.

"Any one can be his or her own teacher—Has the merit of condensation—Specially adapted to self-culture."—Providence Evening Press.

"The most condensed treatise we have seen. Well used, it ought to make a good speaker."—Congregationalist.

POETRY.

THE OUTCAST.

BY FELICIA H. ROSS.

The mows are heaped with sweet, new gathered hay,
If bidden the rafters and the swallows' nest;
Long, waving lines of yellow sunshine play
Across the old man's breast.

Among the shining straw his fingers twist;
Beneath the grizzled hair his eyes grow blurred;
So wearily he draws his breath, I wish
It scarcely stirs his beard.

There is a handbreath of September sky
That looks upon him from the broken roof;
He sees the clouds like ships go sailing by,
The sunset's rainbow woof.

For him, one star with steady lustre burns,
And nightly shrouds his way-worn feet with light;
The steel-blue swallows, when the morn returns,
Toward it take their flight.

Sometimes he hears the feet of autumn rain
Go up and down, along the shingles old;
He hears the farmer whistling in the lane,
The black-birds on the wold.

Three score the years for him since life began,
"Threescore," he whispers huskily "threescore,"
And "as a dream of laughing boys, who ran
Along a shelly shore.

Fond lips grew tremulous with tender words
For him, but that was many years ago;
All day, among his jasmines, humming birds
Went whirring to and fro.

Ah, well-a-day, then followed sin and shame;
They filched the peace and glory from his days;
He fled, to hide him from his evil name
In dreary country ways!

The blindfold heifer stands within her stall
And watches him, with mutely pitying eyes;
A mournful cricket pipes upon the wall:
How still the old man lies!

The blue-winged jays are singing at the door
Among the sumach torches, kindling red;
Still lies his breath beneath the beard so hoar:
Hush, the old man is dead!

[*The Advance.*

THE POWER OF SONG.—A hardened Scottish soldier lay on his hospital bed and refused stubbornly to listen to a word of spiritual counsel from the good minister who visited him. He "knew how to die without the aid of the priest," he said. The most affectionate entreaty seemed lost upon him, and he turned his face to the wall, determined to close the interview.

The minister sat down by his bed and began to sing a hymn well known in Scotland:

"O mother, dear, Jerusalem, when shall I come to thee?"

In a few moments the man turned himself upon his pillow, the hard look all gone and the eye wet with a tear.

"Who taught you that?" he asked.

"My mother," said the minister.

"And so did mine," he replied; and with those memories surging back into his soul he was ready and willing to listen to the words of heavenly counsel.

A PROBLEM.—An exchange says: "Suppose a man and a girl were married—the man thirty-five years old, and the girl five years; this makes the man seven times as old as the girl; they live together until the girl is ten years old, this makes him forty years old, and four times as old as the girl; they still live until she is fifteen, the man being forty-five, this makes the man three times as old; they still live until she is thirty years old, this makes the man sixty, only twice as old, and so on. Now, how long would they have to live, to make the girl as old as the man?"

NEWPORT DAILY NEWS.

THURSDAY, November 7, 1867.

MAXIMILIAN, though but recently executed in Mexico, is already worshiped by a great portion of the nation as a god. The people have implored the Archbishop of Mexico to procure his body for their veneration in the cathedral; the women in all the cities draped in mourning for his loss, and the wailing of the poor wretches in many of the towns, such as Queretaro, are heard night and day. They wear his photograph round their necks, kneel before his image and hang his picture on their walls. Our correspondent wrote us the other day that all business in the capital was at a standstill, except the sale of pictures and images of the Emperor.

The old Mexican superstition or prophecy of three centuries ago, that a good ruler would be sent them from a far country, and that he would be slain by those whom he came to save, is applied in the Austrian Prince, and the feelings and fears of the Indian part of the population have been specially wrought upon. If, in face of all these things, JUAREZ has been elected President, it must be remembered what a Mexican election is, and how it is conducted. At all events, there is no doubt, from what we learn through our correspondents and other sources, that MAXIMILIAN has been apotheosized even before the removal of his body from Mexican soil.—*Ex.*

COUNTERFEITERS OF THE NATIONAL CURRENCY.—It is said that the gang of Belgian-Franco counterfeiters succeeded in imitating all kinds of greenbacks and fractional currency, the $500 note included, and also the well designed gold-bearing interest coupons of various bonds. Colonel Wood has secured all the presses, stones, plates, dies and tools of the gang, including the plates of the gold-bearing coupons. There are over fifty of these stones with the impressions of the counterfeit plates upon them, from five-cent notes up to one thousand dollar notes. One of the gang attempted to erase the impressions of the plates on the stones, after his partners were arrested, by means of sand and water; but the attempt proved a failure, for Colonel Wood's experts again restored the face of the impressions by a chemical process.

Three of the gang have already been arrested; two, Chirie and Stanleigh, in Canada, and Cashard, in New York.

The news that the people of British Columbia are universally desirous of annexation to the United States, is not at all startling. When Secretary Seward had purchased Russian American, it became a matter of certainty that the territory lying between that acquisition and our former boundary line must sooner or later cast its fortunes with the communities which flanked it on both sides. We do not wonder that the people are in favor of this movement, for, with republican institutions all around them, they feel that the pretense of royal supervision by England is a mere mockery. Secretary Seward once suggested that Great Britain should give up this territory as an offset to the Alabama claims, and though Lord Stanley gave the proposition a very first rejection then, it may come up for reconsideration before either he or Mr. Seward goes out of office.

Gen. Butler has evidently been studying the financial policy of the Mexican Government. Their debt would be as great a burden to them as ours is to us but for the fact that payment had never been a favorite habit of theirs. The repudiation, or rather suspension, of their foreign debt was the original ground of foreign intervention, though we do not yet learn that either France or England succeeded in collecting their dues by that process. But now the war is ended, the Mexican Government not only plunges into a general confiscation of the property of the conquered party, but it has declared null and void the bonds of the old legitimate Government, because they were recognized as valid by Maximilian! We commend this brilliant stroke of policy to our own champions of repudiation. They are not quite up to the Mexican yet.

In a recent suit against an express company for the loss of a trunk entrusted to its care, the Company set up in defence the declaration on the check that it would not be responsible for the contents beyond $100, alleging that this operated as a contract. We are glad to see that the Court made short work of this plea. Quite a number of our railroads have the same clause on their tickets. Of course the holder only comes in possession of the "contract" after he has bought his ticket, and when he cannot back out if he wishes. His consent to the contract is not asked, nor has he any means of knowing what it is until after he has made it! This is absurd! If railroads or express companies decline to take property of very great value, that is one thing—they have a right, we suppose, so to do. But if they take it they must must be responsible for its safe keeping.

The first reports from West Virginia were very favorable to the republicans, and no dispatches, if we remember aright, have contradicted the statement that a "reaction" had taken place in that state. The fact is that the aggregate result was a republican gain. Instead of a majority for the democrats on joint ballot, the Senate, is ten to one, and the House four to one republican. The republicans have twenty senators and the democrats two, a gain to the former of two, and the House is as before, forty-four republicans to eleven democrats. In a few localities, the democrats gained and the returns from these counties were carefully detailed in the press dispatches, while the rest were as shrewdly suppressed. However, the time when such misrepresentations will avail anything is now past.

A destructive fire occurred on a farm near Annapolis, Md., last week, by which a large quantity of tobacco, grain, guano and other materials were destroyed, as well as the buildings containing this produce. No insurance.

Literary Notices.

KAVOLOS, and the Queen of Prussia an Historical Novel By L. Muhlbach Translated from the German by T. Jordan. Complete in one volume. Published by D. Appleton & Co., New York.

Mrs. Muhlbach has come to be recognized as one of the first literary characters of her age, and her works as published by the Appletons are widely read. This is one of the series of historical novels on which her fame is built and it is worthy of an extensive circulation. It treats of a period in which centers more than ordinary historical interest, while the personages brought forward are famous the world over.

Mrs. Muhlbach was born in 1811, and was married to her late husband in 1839, and is fifty-three years of age. She has herself related the method which she pursues preparatory to writing an historical romance; she says: "I have never written a book without having studied beforehand the theatre of events. I must get acquainted with the land and people; must know the country, its inhabitants and cities exactly, in order that I may represent vividly and correctly."

The materials thus obtained of the career of those great characters who figure so prominently in her works have doubtless been ample for several works relative to each. The field in which she has wrought has been so rich in great and stirring dramatic incidents, that it has required a masterly hand to use them.

THE AMERICAN STOCK JOURNAL.—We are in receipt of this valuable Monthly for November well filled as usual, with original articles, from some of the best writers in the country. This enterprising Journal seems to meet a want that has long been felt by Farmers and Stock Breeders in this country. The proprietors have secured the services of the ablest and one of the most experienced Veterinary Surgeons in the Union, to answer, Gratis, through the Journal, all questions relating to sick, injured, or diseased horses, cattle, sheep, &c. By adding this useful department to the journal, they offer to all subscribers a Horse and Cattle Doctor Free. This may be the means of saving each subscriber many dollars in the course of a year.

And as a special inducement to new subscribers. They make the following liberal offer: Every new subscriber for 1868, received by the first of December, will receive the October, November and December numbers of 1867 free, making over 500 large double column pages of reading matter in the 15 numbers, all for the low price of $1,00. Specimen Copies free, with list of splendid Premiums to Agents.

Address, NAT. P. BOYER & Co., Gum Tree, Chester Co., Pa.

MERRY MARGUS and Wood'pile's Cabinet for November sustains its well established reputation. Boston, H. H. Fuller, Publisher.

OLIVER OPTIC'S MAGAZINE comes with an excellent table of contents and increases in popularity with every issue. Lee and Shepherd, Boston, Publishers.

MOORE'S MUSICAL RECORD, is also received. It is always filled with valuable articles, published at Manchester, N. H.

THE CROPS.—From the September report of the Department of Agriculture we have a better estimate of the crops of the country than in those made earlier. The estimates of the wheat crop are but somewhat lower in a number of the State, but the crop, in the aggregate, shows a large increase over last year. Except Kansas and Texas, the lowest increase is that of New York, 14 per cent. above the crop of last year, while in Ohio it is 100 per cent. increase.

In corn there seems to be a falling off of the crop from last year in Ohio, Indiana, Illinois, Kentucky and Virginia, while in the southern States the crop is a good one. Rye and barley are estimated at a full yield throughout the States, while oats appear to be superior to last year.

Buckwheat shows an average, but potatoes are rotting badly in many of the large potato growing States. The crop is estimated to fall below the yield of last year. The apple crop is estimated to fall from 10 to 40 per cent. below that of last year. It seems to have been a good year for hay, everywhere. Pennsylvania returns an increase over last year's crop of 60 per cent., New York, 24; Michigan, Wisconsin and Illinois, 28; Indiana, 26; and other States from 25 to 30 per cent. above the crop of 1866. The wool clip is estimated 10 per cent. short of last year, on account of severe weather, exposure, and loss of sheep last winter.

PRESIDENT JOHNSON.—The special correspondent of the Boston Post, who seems to have the inside track at the White House says under date of November 5th:

Developments during the past few days show that President Johnson is perfecting his plans for the programme, as stated in this correspondence some weeks since, and which at the time attracted the attention of the whole country. It is now ascertained that the negro regiments of the Grand Army of the Republic in this city are to be disbanded by peremptory orders from the Government. It was hinted in the Radical organ here a short time since that the service of these troops might soon be needed, and, as the President suspected, to aid in thrusting him from the Executive chair. This he checkmates by requiring these dusky regiments to be disbanded. But Mr. Johnson does not stop here. An order has been issued requiring the Commanding General to report to the President the number of U. S. troops now garrisoning the fortifications in and around Washington, their locality, and the names of all their officers. This is an important move, and will enable the President to lay before Gen. Sherman, upon his arrival here early next week, the precise condition of his new command, and the available force he will have with which to resist any attempt of parties acting "outside of the Constitution" to subvert the form of our government. Things are crystallizing rapidly, and the correctness of my former dispatches will be verified in every particular.

Land is offered to settlers near Jacksonville, Fla., for one dollar an acre! This is dirt cheap.

BUT YOUR COAL.—At the last sales of Scranton coal prices advanced materially and there is little room for doubt but the article will go up here also. At any rate there will be no better time to lay in the winter's stock than now. Our advice is, go to a regular dealer and lay in a full supply and pay for it. All persons except editors and printers should pay down as coal is everywhere a cash article.

FRIEND'S MEETING HOUSE.—The Friends have nearly completed the addition to their meeting house on Farewell street. They have built on a wing 25x40 feet making the audience room 40x70 feet. The expense of the improvement is about $4,000. George Bowen and David Burfum are the Committee having the work in charge.

LAKE ERIE.—There has been a terrible storm on Lake Erie. Several vessels at Buffalo, Dunkirk and other points were wrecked and a number of lives are reported lost. A gale on the lakes is often even more terrific than on the ocean.

SPRING STREET.—We sincerely trust that the proposition to build a new sidewalk on Spring street will be carried into effect. The way has been so bad that it is difficult to tell whether a man walking there is drunk or sober. By all means let us have the new sidewalk.

BISHOPS.—Bishop Williams confirmed a hundred persons in the Episcopal Church in Bedford last Sabbath. That city seems to be in the enjoyment of unusual religious prosperity at present, the fruits of the great revival last winter.

MINSTRELS.—Duprez & Benedict give another of their popular performances at the Academy of Music this evening. Those who have enjoyed the exhibition once are always anxious to go the second time. They are too well known in Newport to stand in need of a puff.

WINTER.—The weather to-day is cold and piercing. The first touch of winter, we have had. Ice formed to quite a thickness last night, and today overcoats and coal fires are indispensible to comfort.

A MONSTER FISH.—The New Bedford *Standard* has an account of an enormous fish on exhibition in that city. It is 4 feet 9 inches in length 1 1-2 inches in circumference and weighing 11 1-2 lbs.

Can Newport beat this?

FUNNY.—The Providence *Herald* is getting to be one of the best comic papers in the country. Its witticisms over the late election are equal to anything we have seen. Republicans as we are we were made to laugh at the funny things in the *Herald* yesterday. Well, it is pleasant to have something to feel merry over and we don't see anything else that is joyous in the political line at present. We trust our neighbor will keep on in this way for a little while, and next time we will give him a chance to tell another story.

A POOR HUSBAND OR BONNETS.—The expense of a new bonnet does not stop with the purchase. I only wish it did. The worst is, when your wife has got a new bonnet, she must go to this place and that place for the purpose of showing it. The new bonnet of itself is but a small matter, but it is the constant exhibition of it afterwards that inflicts the injury on a husband's pocket.—I should like to know of some simple, cheap remedy for the evil, and I wonder that the ladies, when they wish their friends and all the world to know that they have recently come into the possession of a new *chapeau*, do not, instead of publishing the fact on their persons, resort to the far easier and cheaper plan of advertising it in the newspaper somewhat in the following style:

This is to Give Notice, that I have, within the last two days, purchased a new bonnet, which is the prettiest little duck of a thing that was ever seen. It was bought of Madame Ferero, de Paris, and cost $35 if it cost a dollar; as the receipt that I have at home in my desk will testify. I may as well state that it is a love of a drawn bonnet; or, in other words, a little *Capote d'hiver*. The crown, which is of the richest plum-colored satin, is crossed and crossed (like the bars you see on the jam jars) with tiny bandeaux of velvet (the very best Genoa) of a warm dandelion color. Round the edges run small plumes of feathers of a nice jelly *nuance*, and inside and puffs of white blonde (French) that looks for all the world like a cluster of snow-balls in danger of being melted by the warmth of the colors above. The ribbons are *chocolate au lait*. To sum up, the bonnet lips over towards the nose, reclining languishingly on the front of the high waterfall, as though it were too weak, poor thing, to hold itself up, and was going off in a fashionable swoon. In one word, it is so light, so pretty, so *recherché*, and such a *perfect dear*, that Eugenie herself could not help being jealous if she were to see it. However, I shall wear it next Sunday, in church, so that all my friends will have a charming opportunity of judging of the effect, which is as delightful as it is *distingue*.

MRS. WORLDLY MUNDANE,
No 1 Vanity Fair.

Occasionally, when the fair correspondents were afraid to trust themselves to their powers of description, engravings might accompany the advertisements, while colored portraits could be given, not only of the bonnets, but of the lovely wearers themselves, in the ladies' magazines that devote their paint brushes every month to the illustration of the fashions. I am sure my plan would be a saving to husbands of a deal of expense, time and annoyance.

A BILL PAYER.

NEGRO TROOPS.—The World's special says that numerous communications have been sent to the Executive from various quarters of the South, stating that an armed organization of colored persons are forming, and in some instances threatening the lives of white citizens; and that negro companies are drilling near Chain Bridge and other points in Virginia for the avowed purpose of supporting Congress in the enforcement of the law to depose the President during impeachment. The matter has been referred to Gen. Grant. No authority for organizing such companies has been given by the War Department. It is understood that the President has ordered Gen. Grant to take steps to disband and suppress them.

[COMMUNICATED.]

We, the people, elected Andrew Johnson Vice President of these United States. A murderous bullet made him President.

He has proved false to his trust; he has been true to no one pledge that he made to those who elected him; he has vindicated high handed murder in New Orleans, and by his conduct, screened the murderers from justice; he has bid defiance to a Congress elected by the people to represent them; he has assumed that he is the law maker, and he construes the Constitution to pervert justice and carry out his evil designs. He is evidently trying to create a revolution with a view to hide his criminal complicity at New Orleans and elsewhere. He is a traitor and a disgrace to the nation, and for all these things, we the people, call upon the Congress to do their duty and impeach him for his many high crimes, and thereby prevent him from plunging the country again into a civil war, and we appeal to all true patriots to sustain our Congress and to aid all they can in removing this disgraceful usurper from the position he now fills.—Nothing else will save the country from ruin.

ONE OF MANY.

ELECTION REJOICINGS.—In Fall River Tuesday evening the friends of the successful candidates assembled at the Headquarters of the Republicans, but the crowd was so great they adjourned to Music Hall.—The meeting was one of mutual congratulations and rejoicing, over the great success of the day.

At New Bedford the friends of Temperance met in great numbers. Two Brass Bands were in attendance. About 100 ladies were also present.

The meeting was addressed by several prominent speakers, and was one of great enthusiasm. At the close a torch-light procession was formed and visited the residences of the Senator and Representatives elect. All along the route the buildings were illuminated, and repeated cheers were given for the success of the Temperance reform.

As the procession passed the *Mercury* office the lights were extinguished and all was as dark and silent as the grave.

A Model Town.—How to do Without Police.

The editor of the *British Workman* thus introduces the following notice of Bessbrook:

"Before inserting the following paragraph, we have made inquiry as to its correctness, and have been assured on good authority that it is, on the whole, a faithful report."

Bessbrook is an Irish manufacturing town near Newry. Its principal founder and now sole proprietor is J. G. Richardson, a leading member of the Society of Friends. This gentleman, with one or two other "Friends," founded there the Bessbrook Spinning Company, and erected there the Bessbrook mills. The factory has grown so large that it gives employment to 3,000 hands, most of whom reside in the neighborhood of the works.—In Bessbrook there is no licensed public house, nor is there one in any of its surrounding lands. There are no police in the place. The Irish constabulary, armed, occupy every town in Ireland, and have barracks for half a dozen men each along every road side, but there are no police in Bessbrook. Mr. Richardson alleges that so long as he keeps out the public house they can do without police; but that so soon as the bar-room is introduced they will require the constabulary. There is no drunkenness in Bessbrook; in short, the operatives are models of sobriety and good order. Of course, it is not meant to be said that they have not their faults and their feelings like mankind everywhere; but the town is wholly free from the sad scenes which are to be met with publicly every night in much smaller populations. And the population of Bessbrook is composed entirely of operatives, while that of many other towns is mixed, comprising the wealthy and the poor. The operatives themselves have not two opinions on the question of the absence of a public house. They are agreed that if licensed houses were opened in Bessbrook, the reading-room, the library, the schools, the co-operative societies would all be deserted, by only too many, for the allurements of the dram-shop, and that another establishment, hitherto unknown in Bessbrook, the pawn office, would soon be required. And not only so, but the police barracks, the handcuffs, and the dark cells would come into fashion, too, and homes now happy would soon be rendered miserable. All this Mr. Richardson had seen in too many other towns, and he decided to keep the licensed public houses out of Bessbrook. The results have decidedly confirmed him in his resolution, and would convince the most sceptical of the wisdom of the course thus adopted, if the town were once or twice visited by them. Coupled with the last negative point of management is also the exclusion of police and pawn offices, as already referred to; these follow in the wake of the dram-shop, and the exclusion of the public house renders all the rest unnecessary.

Newcastle Weekly Express.

A TORCH STORY.—A Western paper tells the following rather tough story; if it be true, it is the most remarkable on record:

An accident of a remarkable nature, occurred in the woods of a neighboring county last week by which a man was thrown eighty feet into the air. He was standing on a balance tree lying across a large log, to see another tree come down, when the tree in its falling course struck the other end of the tree on which he was standing, and the tremendous weight of it coming on the spring lever, threw him like a shot into the air.

The remarkable part of the story remains to be told. When at his highest elevation the man caught hold of a limb in the top of a tree about fifteen feet from the trunk, and and remained suspended by the arms until the person who felled the tree travelled a distance of five miles, and returned with help and a ladder, before he could be released from his perilous position. He was found in the same position, as when left, evidently in the best of spirits, for he was whistling "Yankee Doodle" and making a strong fight with his feet against a delegation of wasps that were endeavoring to build a nest in the seat of his pants.

He said, upon reaching the ground, that he had had a "healthy time" with the "varmints," and attributed his powers of endurance to the hotly contested caucuss he had with the "critters" by their persistent "fire in the rear," and the tremendous excitement incident thereto.

Louisville will soon have a great bridge spanning the Ohio, which will compare favorable with the superb structure at Cincinnati. The bridge is to be constructed with but one swinging span, of draw, which is over the Louisville and Portland canal.—The total length of the superstructure will be 5,220 feet, and of its guarded approaches 9,500 feet, making the total length of the bridge, from the points where the street is commanded 7,720 feet.

THE GOOD OF SANCTITY.—The saints of the middle ages were fond of sprinkling holy water about. They would probably have made themselves much more agreeable if they had substituted chloride of lime.

THE USES OF ADVERSITY.—Men are frequently like tea—the real strength and goodness is not drawn out of them until they have been for some time in hot water.

DELICACY.—A young lady—a religious newspaper having been left on her toilet table—refused to dress herself because there was an "Observer" in the room.

ANCIENT AND MODERN GREECE are now known among classical students as *petroleum* and *whale-oil*.

POPULAR SUPERSTITION.—When a married couple are walking through a street, it is very unlucky for the gentleman if the lady looks into a bonnet-shop.

SNAKE CHARMING.—A lively traveller states that the serpent-charmers of India exhibit addition sums that are done by adders.

SLEEP.—Remember that time is money; but it does not follow that a man is a capitalist who has a great quantity of it on his hands.

INCOME TAX.—If you do not like to pay this impost, allow your wife the privilege of signing checks, and the very next year you will be relieved of the tax.

How to get sauce in large quantities.—Stop a waiting maid in the street, and tell her (as a joke) that her waterfall has dropped off.

There is an old lady who says that she always likes to travel by the Grand Trunk Line, because then she feels confident about the safety of her baggage.

Why are railroad companies like laundresses? Because they have ironed the whole country, and sometimes do a little mangling.

Grace Church of New York has offered Rev. Dr. Beckwith of New Orleans $15,000 a year and the free rent of the parsonage. It is understood that he will take the Bishopric of Georgia.

A couple from the country put up at the Bay State House, in Worcester, Mass., on Saturday, and upon going to bed blew out the gas-jet. They were found insensible in the morning, and their lives were saved with difficulty.

The office of the Southern Express, at Jackson, Tenn., was broken open Wednesday night, and the safe, containing $5,000, and a large amount of valuable papers, were carried off. There is no clue to the robbers.

The wood-sawing tournament came off in Lafayette, Ind., on Friday last. It was quite a demonstration. The victory was gained by the Independence B. B. Club, who sawed nine cords in three hours and ten minutes. The best thing about it was that the wood goes to the poor of the city.

The law recently passed by the Legislature, compelling the railroads of Tennessee to receive negroes as passengers on the same footing with whites, is somewhat interfered with in the adjoining States, for as soon as a train crosses the State line of either Kentucky or Alabama, negroes may be ejected, and it is said that some of the roads propose to take advantage of this.

NARRAGANSETT PARK.—Those interested in turf matters, must not forget that one of the most exciting races of the season will take place at Narragansett Park next Monday, good day and track, or next thereafter, between Lady Thorn and Lucy, the two fastest trotting mares in this country. The match is for $1,000 a side, half forfeit, mile heats, best three in five to harness.

Two of the best cook stoves in the market, the "Iron Age" and "Dictator." Old stoves taken in part exchange for new, at Cunningham's Emporium.

IN THESE times of high prices, quality is the object. Dunster's fine old London Dock Gin costs money, but it is the very best and purest Gin you can buy. For sale by all grocers and druggists who want to sell a good article.

No. 2.

DR. SCHENCK'S
NEW OFFICE.

DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption, or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and if he can use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer, but by it he can tell exactly how far the lungs are gone, and what part stays, whether it is Tuberculous, Pulmonary, Bronchial, or Dyspeptic Consumption, or whether it is merely an ulcerated throat and cough, or from liver complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by, and are able, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal. Then the chills and night sweats will stop, and the expectoration becomes free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $15.00 the half dozen. Mandrake Pills, 25 cents per box.

Alpine Bitters.

THE ALPINE BITTERS, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their remedial qualities are unrivalled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.

The ALPINE BITTERS have a soothing and restoring influence upon the entire nervous system, upon the digestive organs, and is highly recommended to ladies and even children in delicate health, and to all who are averse to taking Wine, poisonous whiskeys and other stimulants.

The continually increasing demand for this universal popular European Tonic and Anti-Dyspeptic Bitters, has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.

Paris Exposition.

GOLD MEDAL.

An Admitted Fact.

It is admitted by all that ELIAS HOWE, Jr., President of The Howe Machine Co., was awarded a GOLD MEDAL at the Paris Exposition.

Also, it is admitted that the *Grand Cross of the Legion of Honor* was conferred upon ELIAS HOWE, Jr., by the Emperor Napoleon. These were the HIGHEST HONORS ever awarded to a *Sewing Machine Manufacturer*.

THE ONLY QUESTION IS,

For what did ELIAS HOWE, Jr., *receive these honors?* He entered the Exposition as a MANUFACTURER of Sewing Machines, *not as a Defender*. *He did not apply for or receive his Gold Medal as Emperor.*

The AWARD stands of ELIAS HOWE as "*Inventor*" and "MANUFACTURER" of Sewing Machines.

Mr. HOWE (who is supposed to know) says the Good Marks was awarded to his *for Mr. Wilson's Necklaces Stitch*, AND FOR NOTHING ELSE.

Now in all fairness we ask, *Which Sewing Machine* took the FIRST PRIZE at the Paris Exposition?

Let common sense answer, and we are content.

500 MILES

OF THE

Union Pacific Railroad,

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-THIRD OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW employed UPON IT THAN EVER BEFORE. More than

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railroad, to develop and protect its own interests, it gave the Companies authority to build such simple aids as should render its speedy completion beyond a doubt. The main enlargements of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—United States Bonds

Having thirty years to run and bearing six per cent. currency interest at the rate of $16,000 per mile for 247 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a second lien as security. The interest on these bonds is paid by the United States Government, which also pays the company one-half the amount of its bills as earned for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of the debt. The claims against the government since April of the current year amount to four and one-half times this interest.

2.—First Mortgage Bonds.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and *on no more, and only as the road progresses.* The Trustees for the Subscribers are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—The Land Grant.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the government of 12,800 acres to the mile on the line of the road which will not be worth less than $1 50 per acre at the lowest valuation.

4.—The Capital Stock.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $6,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 915 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 500 miles), at the average rate of nearly eight thousand and five hundred dollars ($8,500) per mile. This price includes all necessary outlays for reconstruction and repairs of cars, locomotives, stations and all other incidental buildings, and also for cars, freight, baggage, and freight cars, and other rolling stock, to an amount that shall not be less than $2,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $20,000 per mile,

The Total Cost of Eleven Hundred Miles will be as follows:

915 miles, at $8,500	$7,775,000
186 miles, at $20,000	3,720,000
Add discounts on bonds, surveys, &c.	4,500,000
Amount	$15,995,000

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

Available Cash Resources for Building Eleven Hundred Miles:

U. S. Bonds	$6,400,000
First Mortgage Bonds	6,325,000
Capital stock paid in on the work now done	6,000,000
Land Grant, 11,000,000 acres, at $1 50 per acre	16,500,000
Total	$35,145,000

The company have ample facilities for anticipating any deficiency that may arise in means for completion. This may be done wholly or in part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of the bonds, and arrangements are now proposed to offer a part of them for sale. While all the bonds will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company, are selling at from $6 to $12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent, will be one of the wonders of railway transportation; and call it will have no competitor it can always charge remunerating rates. The Pacific Mail Steamship Company of New York between San Francisco and China and Japan, which is doubtless the pioneer of other lines that will traverse the Pacific Ocean laden with the teas, silks and other products of Eastern Asia. Excepting some very heavy or bulky articles, of comparatively low value, short routes of time decides the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that the trade will be limited only by the capacity of the line, and that no other road will find a *double* so necessary. California and Oregon must not only be supplied with means of transport for its passengers, mail, treasure and other freights, but the inhabitants of Nevada, Colorado, Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining district which is only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

EARNINGS FROM WAY BUSINESS.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 325 miles of the Union and Pacific Railroad was in operation. The Superintendent's Report shows the following result:

Earnings.

Passengers, Freight, Telegraph and Mails	$783,156 54
Transportation of Contractors' Materials and Men	419,283 41
Total	$1,202,439 95

Expenses.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$395,530 92
Net Earnings to balance	807,505 03
Total	$1,203,035 95

The net operating expenses on the commercial business for the quarter were $297,964 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$723,156 54
Expenses	297,964 50
Net Profit	$425,192 04

The amount of Bonds the Company can issue on 325 miles at $16,000 per mile, is $5,200,000. Interest in gold, three months, at 6 per cent., on this sum, is $78,000; add 40 per cent. premium, to correspond with currency earnings, is $109,200—showing that the net earnings for this quarter were *more than four times the interest* on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the *safest investments.* They pay

Six per Cent. in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at Six Per Cent. in Currency from July 1.

Many parties are taking advantage of the current high price of Government Stocks to exchange for these bonds, which are over FIFTEEN PER CENT. CHEAPER, and, at the current rate of premium, yield over

Over Nine Per Cent. Interest.

FURTHER RETURNS FROM THE ELECTIONS.

WISCONSIN.

MILWAUKEE, Nov. 6—Not a democratic gain in the State as far as heard from in 2,000. The republicans claim that Fairchilds is elected by about 4,000. The democrats concede a majority of about 3,000. The democrats gain six or eight members of the Assembly and three or four senators.

MINNESOTA.

ST. PAUL, MINN., Nov. 6—Scattering returns received indicate that Marshall, republican, is elected Governor by about 4,000 majority. The negro suffrage will probably be defeated, though it is not yet hopeless. The entire democratic ticket in this county is elected by from 700 to 800 majority.

TERRIBLE TORNADO AT ST. THOMAS.

THE TOWN OF ST. THOMAS IN RUINS.

Immense Damage to the Shipping and Great Loss of Life.

HAVANA, Nov. 6.—An official dispatch from the Superintendent of the Royal Mail Steamship Company at St. Thomas to the British Consul in this city, says all the property of that Company has been destroyed by a terrible tornado which took place on the 20th ult. The town of St. Thomas is in complete ruins. Fifty vessels were ashore. The loss of life is very great, and the destruction of property immense. The tornado has indeed been a fearful one.

NORTH CAROLINA.

WILMINGTON, Nov. 6.—The conservative success in the North has been received with enthusiastic joy in North Carolina.

NEW ORLEANS FREE FROM EPIDEMIC.

NEW ORLEANS, Nov. 6—The Board of Health last night declared the yellow fever no longer an epidemic. Citizens and strangers can now return at once without apprehension.

The total number of deaths from yellow fever up to yesterday morning were 3006.

FIRE IN SCRANTON, PA.

SCRANTON, Pa., Nov. 6—A fire broke out in the Fourth Ward of this city this morning, destroying ten buildings, occupied as stores, saloons and dwellings. Total loss between thirty and forty thousand dollars, about half of which is covered by insurance. The Philadelphia Companies are the heaviest losers.

THE PRESIDENT AND GEN. GRANT.

WASHINGTON, Nov. 6.—Forney's Press and Chronicle of to-morrow morning will each contain a long editorial in advocacy of Gen. Grant for the Presidency. It is therein said that Gen. Grant is in hearty accord with the republican party, and in proof of the truth of this assertion, the editor quotes from a speech of Hon. Elihu B. Washburne at Elizabeth, Illinois, on the 6th of October, which it is said may be accepted as alike authoritive with the declarations of Gen. Rawlings' speech. The editor says in italics: "It was carefully prepared in Washington after a full understanding with General Grant, and was spoken so that the country might know exactly the position occupied by Gen. Grant himself."

A HOAX AND ITS RESULTS.—Three Hereford men lately telegraphed "for fun" to Ross and Salisbury, in the name of the chief of the county police: "Several low Irish—suspicious looking individuals—lurking about here, supposed Fenians; look to the armory. We are prepared here." The consequence of this telegram was that both towns were frightened out of their wits, and the police and volunteers got ready for the attack. One of the jokers is now in jail awaiting a reply from the Home Office as to what is to be done with him. The chief constable of Herefordshire intends to prosecute him.

New York and Boston

CHEAP CASH STORE.

C. G. HANDY & SON

WILL be ready and happy to exhibit on sale, to their friends and the public, their carefully selected NEW STOCK of DRY GOODS, on

MONDAY MORNING, 8th inst.

These Goods were selected and purchased the present week, by the senior partner, assisted by an experienced Mantle Maker, from the extensive assortment of Messrs. Alexander J. Stewart & Co., Broadway, Chambers, and Reade streets, second floor, Manufacturers, Manufacturing Agents, Importers and Jobbers, and at Auction Sales in New York.

And in calling your attention to an examination of this Stock we would say, that Dry Goods have been purchased the present week at wholesale, at from 10 to 25 per cent. less than at any previous time for the past six years; consequently, you have reason to expect GREAT BARGAINS, and will not be disappointed, as our motto is Change sales (for Cash) at the counter) and small profits.

We are confident, if you will call and look at the Goods before purchasing elsewhere, you will be so happy to show, whether you purchase or not, you will be induced SOON to purchase or advertise us, as you wish to be.

NEW YORK & BOSTON CHEAP CASH STORE.

We will, additions will be made to our stock of such goods as are desirable. Personal attention given to all purchases and sales of them, and we confidently expect to change our whole stock every fortnight, the benefit being to the purchaser and proprietors instead.

SECURE A POLICY

—IN THE—

NORTH AMERICA LIFE INS. CO.,

I. Because it gives more Liberal Policies, than any other Company. They are all unforfeiting and incontestible. It insures **Officers of the Army and Navy,** in times of peace, at the usual rates, with no increased risks in event of hostilities. It makes no extra charge on account of occupation, nor for **TRAVEL or RESIDENCE, at any season of the year,** in the United States or Europe.

NEARLY A WORLD-WIDE POLICY.

It allows thirty days grace, on renewal payments and grants *weekly compensation* to those injured by public travel.

II. It is Most Secure;

It makes special deposits in the Insurance Department of the State of New York, for which the State guarantees the payment of its Policies, in case the Company should at any time fail to meet its obligation. No other Company gives the assured such security, or anything equivalent thereto. **That is Best which is Most Secure.**

III. It is most economical. Its ratio of claims and expenses, last year, was less than that of any other Company in the United States, which had been in operation a full year. There is Pressing in the hands of the Policy Holders the largest proportional sum for dividends.

N. D. MORGAN, President. J. W. Merrill, Sec'ry.

LEA & PERRINS'

Celebrated

WORCESTERSHIRE SAUCE

Pronounced by Connoisseurs to be the 'Only Good Sauce,' and applicable to every variety of DISH

EXTRACT of a Letter from a MEDICAL GENTLEMAN at MADRAS, to his Brother at WORCESTER, May, 1851.

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made."

The success of this most delicious and universal condiment having caused many unprincipled dealers to attempt to imitate the *Worcestershire Sauce*, the Public are *respectfully and earnestly* requested to see that the names of LEA & PERRINS are upon the WRAPPER, LABEL, STOPPER and BOTTLE.

Something New.

The Great American Tea Company Outdone.

W. & P. BRYER,

No. 15 Broad Street,

MAKE the following propositions: They will put up at the market price one Hundred pounds papers of English Breakfast Oolong and Hyson Teas, such as they are now retailing, for one dollar per pound, and deliver the same on the 25th of September at the residences of purchasers. In every tenth pound will be enclosed a five dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement they will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent. or more.

WHOLESALE PRICE,

which is simply what it has cost to be here.

We are only enabled to do this by our connection with an extensive wholesale tea-store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the remaining number will be disposed of according to the above terms.

There are not a dozen teas provided for the purpose, but a regular assorted article. Other grades may hereafter be sold in the same way. Now is the time to send in your orders.

A Library of Universal Information.

THE NEW

American Cyclopædia:

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA,

AIDED BY A NUMEROUS CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 800.

750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information.—In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, everything of every conceivable subject, and, having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, which in itself for purposes of reference at least a thousand volumes, is within the reach of all—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

Six Volumes now out.

The same price per volume, and uniform with the NEW AMERICAN CYCLOPÆDIA.

PUBLISHED ONE VOLUME ANNUALLY.

Registering all the Important Events of Each Year—Valuable as a Work of Reference.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."

Albany Evening Journal, Albany, N. Y.

"We can confidently and conscientiously recommend the 'Annual Cyclopædia' to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference."

Evening Traveller.

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

DR. WARREN'S

BILIOUS BITTERS!

The Great Blood Purifier and Regulator.

CURES

Liver Complaint, Jaundice, Biliousness, Weakness, Debility, Colds and Fevers, Fever and Ague, Headache, Dizziness, Eruptions on the Skin, Humors of the Blood, Loss of Appetite, Costiveness, Piles,

AND ALL COMPLAINTS CAUSED BY

Impure Blood, Imperfect or Obstructed Circulation, or a Deranged and Diseased Condition of the Stomach, Liver, Kidneys and Bowels.

FOR Cleansing, Strengthening, Invigorating and Putting in Order the Weak, Debilitated and Diseased Human System, Dr. Warren's Bilious Bitters are unequaled by any other Medicine in the World.—Persons suffering from a complication of diseases of a chronic nature, will find sure and speedy relief in the use of this invaluable medicine. It quickens the circulation, restores the lost appetite, regulates all the functions of the body, cleanses the blood, carries off all morbid and unhealthy secretions, and imparts strength and vigor to the whole system.

From M. S. Burr & Co., the oldest Wholesale and Retail Dealers in Proprietary Medicines, Perfumery, &c., in New England:

"We have sold large quantities of Dr. Warren's Bilious Bitters during the past five years, both at wholesale and retail, and have yet to learn of a single instance wherein they have failed to give perfect satisfaction. From personal knowledge, as well as from the reports of our numerous customers, we confidently recommend Dr. Warren's Bilious Bitters to the public as a safe, reliable and very valuable Family Medicine. M. S. BURR & CO."

N. B.—Observe a Steel Plate Signature of the Proprietor (John A. Perry,) on the wrapper, without which none is genuine.

ACROSS THE SIERRA NEVADAS

THE

Central Pacific Railroad.

THE WESTERN HALF

OF THE

GREAT NATIONAL TRUNK LINE

Across the Continent,

Being constructed with the aid and supervision of the United States Government, is destined to be one of the most important lines of communication in the world; as it is the *link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line between the two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in Gold:

Gross Earnings,	Operating Expenses,	Net Earnings,
$487,579 64	$86,543 47	$401,031 17

or at the rate of two millions per annum, of which more than three-fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal rate of government transportation, and is exclusive of the material's carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain range. Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,592,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the Public lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the General Government in effect, invites the co-operation of private capitalists, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty-Year Six Per Cent. Coupon Bonds,

Principal and Interest Payable in Gold Coin,

in New York city. They are in sums of $1,000 each, with semi-annual gold coupons attached, and are selling for the present at 90 per cent and accrued interest from July 1st added, in currency, at which rate they yield nearly

Nine Per Cent. upon the Investment.

These Bonds, authorized by act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent in all cases the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, Stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the securities, safeguards and guarantees of the Pacific Railroad Act of Congress, and have in addition several noticeable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 300 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources and prospects of the Road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. Three sizes are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Solesaent in Newport,
